

Bulletin on access to DMV portal for vehicle information on registered owners and lien holders

DMV mailed approximately 500 letters to those licensees that have registered wreckers, with a return date of December 31, 2018. These letters were for access to the online DMV portal for abandoned vehicle registered owner and lienholder information. Out of this mailing, approximately 200 applications were received and processed – of that 200, over 100 were returned due to being incomplete – missing signatures and other required information. 300 of the licensees with registered wreckers did not respond.

If you received your application back, complete it and return it as soon as possible. If you did not complete an application go to this site <https://www.ct.gov/dmv/cwp/view.asp?a=799&q=606170> and download and complete the forms. The old system of calling in will be taken down once the online system is fully completed

Do not wait until it is too late and your business has no source for this information.
